ATTRACTIVE PICTORIAL BOOK

The 1924 edition of the booster pamphlet issued by the Southern Alberta and Southwestern British Columbia Tourist Association has come to hand and is most attractive. The booklet contains one hundred and seventy-five views, all of which were taken by Commissioner Spalding himself during his tour last fall of the Banff-Windermere-Crows' Nest Pass route and describe the scenic beauties of Cranbrook, Elko, Fernie, Crows' Nest Lake, Coleman, Blairmore, Frank, Pincher Creek, Macleod, Lethbridge, Medicine Hat, High River, Banff and Lake Louise. Accompanying the booklet is a small leaflet giving a list of hotels and garages on the All-Red route and Banff-Windermere road. One regrettable feature in connection with this pamphlet is the fact that only a few of the first-class hotels on the route are mentioned and also that Coleman's golf course was forgotten. We understand the absence of reference to certain hotels is accounted for in that the owners or lessees of them did not feel disposed to come through with the fee of \$25. There is no doubt that this medium of advertising hotels, etc., to the tourist was the very best possible as some fifty thousand of such pamphlets are being circulated throughout Canada and practically all States in the Union.

The above Tourist Association is controlled by the Boards of Trade of Cranbrook and Fernie in British Columbia; Blairmore and Macleod in Alberta; and the city councils of Coleman, Pincher Creek, Lethbridge, High River and Banff in Alberta.

NEW LIQUOR ACT IN EFFECT

Alberta's new liquor act under which beer will be for sale in licensed premises, and strong liquor will be obtainable from government vendors under permit, was proclaimed law on Saturday last. Vendors stores are now being opened up at various points in the province. In connection with the enforcement of the new law, A.H. Schurer, former Provincial Police Inspector, and a veteran Mounted Police officer, has been named as chief enforcement officer.

GOLF

A club competition for the ladies was held on Saturday, May 17th, at 2 p.m. Mrs. Bird will present a prize and act as hostess for the afternoon. Mrs. E. Whitehead was the winner in last Saturday's match. Mixed foursomes on May 24th. Please hand in names early.

MAYOR ADJOURNS COUNCIL WHEN FREE LIGHT, DEBATED

The regular meeting of the town council on Monday night was adjourned by Mayor McLeod, Councillors Gillis, Montabetti, Morgan, McDonald, Patterson and Ferguson, and Secretary Wright.

The minutes of previous meeting were approved as read and the following accounts were passed for payment, subject to approval by committee: West Canadian Collieries \$425, Joseph Stove \$250, L. Dubouche \$100, D. Walker \$50, J. Rygate \$100, R. Crayford \$49.50, J. Stairford \$50.00, F. Bombardier \$21.00, J. Aschbacher \$12.00, J. McLachlan \$12.00, C. Bouthiller \$9.00, E. Ficar \$9.00, I. Ray \$16.00, E. J. Pozzi \$9.00. Mr. W. A. Henderson was then upon the council as a delegate from the Board of Trade and asked for concessions for the 1924 season. After some discussion, it was moved by Councillor McDonald and seconded by Councillor Gillis, that the Blairmore Board of Trade be granted free light and water for the year 1924 for the purpose of the Tourist Camp.

Gillis-McDonald.—That the matter of application of Mrs. Petrine Kylo for allowance under the "Widowed Mothers' Allowance Act" be referred to the Finance Committee for recommendation at next meeting.

McDonald-Morgan.—That the tender of E. J. Pozzi re sidewalks in Block 12, Plan 2347, west end, be accepted, same to be started at once. Mr. Pozzi's figure on this work is the same as that given on the Victoria Street sidewalks from Fifth Avenue to Ninth. The new sidewalk is to be nine feet in width.

Montabetti-McDonald.—That the tender of E. J. Pozzi for retaining wall between Third and Fifth Avenues on Victoria Street stand over until Mr. Pozzi gives guarantee as to strength. In this connection, carefully drafted plans and specifications were submitted by Mr. G. A. Vissie, calling for a retaining wall fronting on about eight lots, with an average height from base of twelve to fourteen feet and a width of 36 to 40 inches at base to about 18 inches at top, with wings at every 12 1/2 feet. Mr. Pozzi figures on ample strength being afforded by a wall of 12 to 18 inches in thickness. The wall in question will be required to withstand the pressure of about twelve feet of soil by the street side.

Council-Montabetti.—That the Council sit in a Court of Revision at the Town Office on Monday, July 15th, at 10 a.m.

Under the heading of "Enquiries," Mr. Gillis asked as to whether anyone in town was receiving free light and water and was informed the Secretary that some members of the council were accepting such privileges. Mr. Gillis thereupon asked "Why?" and "Why he was being discriminated against?" Councillor Ferguson, in order to satisfy the council that such was not the matter and the following reply received was handed to the Secretary and read to the meeting:

Sir: Replying to your favor of the 15th of March, I may say that your question is fully answered in the letter written from this department on April 5th, which according to your letter was read at the council meeting. I may say that His Worship Mayor McLeod has been carrying on correspondence arguing the question. However, the department has expressed its opinion in all the letters in keeping with the letter of April 5, to the effect that the council in voting themselves free light and water entered into a contract within the meaning of the act, and committed a breach of the Town's Act.

It was understood that only three members of the present Council were accepting free light and water—namely McDonald, Patterson and Morgan, who claimed that they felt they were entitled to this consideration for their services during the flood period of 1923, but they were not aware of the fact that Mayor McLeod was also benefitting therefrom. Councillors Gillis, Montabetti and Ferguson, new members of the council, are not accepting free light and water, feeling that in accepting such they would be doing contrary to their pledge of office.

A very heated discussion arose, which involved personalities, while the fever was at its height the meeting was declared adjourned by the Mayor.

INTEND TO DRY UP

British Columbia Methodists are lining up for their campaign against beer in the approaching plebiscite.

Mary Ledieu, sister of Ed Ledieu, of the mercantile firm of Lesky & Ledieu, died at Coleman on Monday, following a prolonged illness, at the youthful age of twenty-two years. Miss Ledieu was very popular among the younger set of Coleman and will be keenly missed. Interment takes this afternoon at the union cemetery, Coleman.

J. P. "Doc" Smith, R.C.M.P. officer, was awarded \$2000 damages by the Vancouver courts in his action against Rev. Clem Davies, of Victoria Central Methodist church, for having on December the 9th last addressed an audience of 900 people, stating that Smith was not only a trafficker in narcotic drugs, but was a narcotic fiend himself. Smith sought \$2500 damages. The case is to be appealed.

BEER ON THE MARKET

The sale of permits under the new Liquor Control Act commenced on Monday of this week and have since been in great demand. Local agencies of the various provincial breweries have been busy filling orders for immediate delivery to homes.

White fish fry, to the number of one million have been deposited in Lake Shabandawa.

BLUE BRON TEA

Rich! Strong! Delicious!
It stimulates a man for his work in the morning and helps him to forget his troubles at night. Ask for it.

The Tide Has Turned

The feeling of discouragement, amounting in some instances almost to despondency and pessimism, that has prevailed in Canada during recent years is passing away. Evidence of this is seen everywhere, and while there are still some croakers and prophets of blue ruin their number is steadily and more and more rapidly declining, while the ranks are filling up with Canadians who are openly giving proof of their confidence in the Dominion and its future.

A study of the Canadian situation, viewed from all angles, provides ample support for this more hopeful feeling, and goes to show that it is based on a solid foundation of facts. If this country suffers from one great national fault it is that, as a people, we take too short a view and are too impatient for results. We are a young country and are too apt to fall into the errors of youth. In an old country like England they do not expect to achieve great reforms overnight, or in a year, or a decade. They realize that it has taken generations to effect reforms and advancements from which they now benefit. But too many people in Canada "want what they want when they want it," and become discouraged and discontented if it is not immediately forthcoming.

Having for some time past been engaged in discussing our difficulties and handicaps, let us, for a change, take a look at the brighter, truer side of the picture.

During the twelve months ended March last, Canada's trade was almost two billion dollars, and represented an increase of two hundred millions of dollars over the previous year. And whereas in 1922 our imports exceeded exports by over seven million dollars, in the year ended March last our exports exceeded imports by over \$160,000,000.

During this last fiscal year Canada manufactured and exported 15,396 motor trucks as compared with only 5,720 the previous year, and passenger automobiles exported increased by over 9,000.

Canada's flour mills in this last year totalled 11,175,000 barrels of flour abroad, or 1,500,000 more barrels than a year ago. In pulp and paper Canada exported \$142,000,000, or \$20,000,000 more than a year ago. In lumbering and mining, the same story of progress is recorded.

Wheat production in Canada last year totalled 174,000,000 bushels as compared with 161,000,000 bushels ten years ago, and the manner in which Canada is outdistancing the United States as an exporter of wheat is revealed in the fact that during the nine months ended March last the United States exported only \$74,000,000 of wheat as compared with \$161,000,000 in the corresponding months of the previous year; whereas Canada's wheat exports jumped from \$11,000,000 to \$15,000,000. In other words, where the United States exported \$50,000,000 more than Canada in 1922-23, Canada exported \$81,000,000 more than the United States in 1923-24.

These things are having their effect. Employment is much better today than a year ago, and very much better than two years ago. Railway earnings are decidedly better, with a consequent very gratifying drop in the deficit on the Canadian National Railways. For the first time since the war, Canada's national budget has been balanced, and the government has been enabled to bring a start in the reduction of taxation imposed, which, in turn, will have a beneficial effect on all industry.

But it is not in wheat production alone that a marked improvement is being recorded in the industry of agriculture. The growth in the dairy industry of the prairie provinces in recent years has been nothing short of marvelous, and while the livestock industry is still depressed, it is felt that recovery has been reached and that the tendency must now be upward towards larger markets and better prices.

Recently the manager of the only existing bank in one of our Western municipalities informed the writer that he did not know of a single farmer in the municipality who had lost money on his operations during 1923, and that he did not know of scores of them who had made money and been able to substantially reduce their liabilities, while those fortunate ones without old debts had increased their holdings or their balances in the bank.

Following the depression and ebb of prosperity in the years after the war, the tide is again turning in favor of Canada. Immigration is increasing, and both people and Government are at last alive to the necessity of acting energetically to secure large numbers of the right type of settlers for this country. Immigration assisted in bringing prosperity and development to Canada in the years prior to the war; it will have the same effect again.

Conditions for agriculture are favorable at the opening of the season of 1924. There may be some reduction in acreage seeded owing to the lateness of the season, but the seed has gone into the ground under the most promising conditions.

There is, therefore, good reason why the feeling of depression should be fading away. There is no ground for pessimism. The country itself is all right. Mistakes have been made in the past which must be overcome, but they are not insurmountable. Faith and hard work will correct them. These are the main things Canada needs today. We believe Canadians, taken as a whole, are prepared to supply these two requisites.

Products of the Maple Tree

Maple Sugar Crop in Quebec Will Amount to 22,000,000 Pounds

With a maple sugaring season extending this year over seven or eight weeks as compared with a normal period of five weeks, officials of the Quebec Provincial Department of Agriculture forecast that the maple sugar crop this season will be of about 22,000,000 pounds.

At the average cost of 25 cents per pound, farmers will realize about \$5,500,000. Experts claim that the sap has not been as rich as it has been for many years. The province of Quebec supplies a big percentage of the world's maple syrup and maple sugar.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Pæregoric, Drops and Soothing Syrups — No Narcotics!

Vote \$500 For Prizes

Prize Winners From Alberta at International Hay and Grain Show

The Calgary Board of Trade announces that \$500 will be distributed in prizes in Alberta to the first prize winners from Alberta at the International Hay and Grain Show in Chicago in December. Last December, Alberta men won four championships and 41 other prizes.

Mild But Suggestive

The more than usual lack of intelligence among the students that morning had got under the professor's skin. "Class is dismissed," he said, exasperated. "Please don't flap your ears as you pass out."

Chas. H. Fletcher.

Memmonites Buying Land

Deal Involving \$270,000 Was Put Through Recently
Involving a deal of \$270,000, a group of twenty Memmonite families have purchased the 6,688-acre farm of Wilson Brothers, at Harris, Sask., on the line of the Canadian National Railways. The deal, while completed by a private concern, was the outcome of lengthy negotiations carried on by the Canada Colonization Association, the manager of which claims that the Memmonites who have bought this land are of a different sect to those who have gone to Mexico. He states that they are industrialists and not communists, and do not share the prejudices of the old sect of Memmonites against Canadian institutions.

Women! Dye Faded Things New Again

Dye or Tint any Worn, Shabby Garment or Drapery

Diamond Dyes
Each 15-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

Panel Work Completed

Last of Four Placed in British House of Parliament

The last of the four mosaic panels which adorn the central hall of the Houses of Parliament, representing the four kingdoms, England, Ireland, Scotland and Wales, has been completed.

The panel portrays St. Patrick for Ireland and is the work of R. Anning Bell, R.A. The unveiling took place on St. Patrick's day and was attended by the Irish members of both Houses.

Four great arched panels were set aside for the purpose when the building was erected, and the intention of the architect that the work of filling them in should be done by posterity has been taken into the years to be realized.

The first panel, which represents St. George for England, was completed in 1870. St. David for Wales in 1898, and St. Andrew for Scotland last year.

Corns, Warts, Bunions, Painlessly Removed

Don't tramp any longer, don't suffer another day, don't be bothered with corns, warts, bunions, the best, the one that for fifty years has proved a true one, will rub out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute. See every-where.

Mineral Production Increase

Official statistics issued by Hon. Wm. Sloan, minister of mines for British Columbia, place the value of the mineral production of the province for 1923 at \$41,304,320. This is \$614,477 greater than the monetary value of the output during 1922, an increase of 17.5 per cent.

COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Macquodoch, N.S., writes: "I am very grateful for the benefit I have received by using Milburn's Heart and Nerve Pills. When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short-winded, and could not possibly sleep at night, in fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken ten I could enjoy a good night's rest as well as any one."

There are lots of returned men who are suffering the same as I did, and I feel sure if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have. Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Dependent Children in Ontario
Approximately 15,000 children under sixteen years of age are dependent upon public charity in Ontario, according to the annual report of the Commissioner of the Mothers' Allowance Act. Homes last year were found for 1,500 children, 225 in infants' homes and 486 in shelters.

Entirely in Favor
"Did you favor the honor system at the recent election?"
"I sure did; I voted for it five times."

Minard's Liniment for Aches and Pains

W. N. U. 1524

The Pre-War Mind

Is War the Result of Habit of Thought?
Whatever may be said on platforms, the pre-war mind is unable to conceive of the outbreak of war; and paradoxically it is largely because of the ridiculous defenses exacted from young men for the opinions of their elders that the tradition of the inevitability of war has been so long perpetuated. So long as that is accepted as a matter of course, war must survive just as the duck survived, in spite of legislation, as long as it was a matter of course for a man of honor to demand "satisfaction" with the sword or the pistol. The result of such a habit of thought is visible less in this country than on the continent, but evidence of it was very apparent in the recent debate on the air force. The pre-war thinker, try as he may, cannot get it out of his head that armaments are built to be used. In his opinion, the more he is more likely to talk of them as an illustration of the old maxim about wishing for peace and preparing for war. When he is discussing the armaments of his own country he will always say that they are merely for protection. But directly he looks at the armaments of another country he can only see them as something aimed deliberately at him. If the post-war mind cannot escape from that line of argument, war remains inevitable.—Reginald Berkeley, M.P., in the Spectator.

NOSE COLDS QUICKLY STOPPED

A neglected cold is the open gateway to Consumption.
Quickly stop a cold, the best way is to clear the air passages with CATARRHOZON, free them of germs, and let the healing vapor of CATARRHOZON reach the throat.

Brings instant relief. Your suffering throat and nose are cleared, inflamed bronchial tubes are healed, all danger of Catarrh is prevented. Carry CATARRHOZON in your purse, in your vest pocket, and use it when the first shiver or sneeze comes. Complete outfit, One Dollar, small size 50c. At all druggists. Refuse a substitute. By mail from The Catarrhose Co., Montreal.

Increased Activity in Car Loading
Car loading in March went well ahead of the record for February, and also far in advance of the showing for the corresponding month of last year. The total was 289,359, as against 223,360 in March, 1923. This is very significant and convincing proof that the Canadian railway country has improved in like degree, according to the Dominion Bureau of Statistics.

An Oil that is Famous.—Though known to the English as Dr. Williams' Pink Pills, it is the name of that famous compound. From here go your gaze, and speak of Canada and South America, the West Indies, Australia and New Zealand. That for which Canada to attest its excellence for all these countries it is on sale and in demand.

Cargo Worth Millions

C.P.R. Lined Carrier Shipment of Silk and Siberian Skins
With several million dollars worth of silk, the largest cargo of Siberian skins ever brought across the Atlantic Ocean, and a consignment list of over 700, the Canadian Pacific steamship Empress of Russia docked at Vancouver recently. Within a few minutes from the time the big liner was tied up, the silk was being emptied from her holds into the specially fitted box cars which awaited it. Less than three hours later the entire shipment pulled out of the railway yards for its destination in the eastern markets.

A Timely Melody

An Arkhane man has divorced his wife because she bobbed her hair. Will the orchestra please play that touching melody, "He loved her for her locks of gold and when she lost them love grew cold."—Chicago Evening Post.

Clogged-Up Liver Causes Headache

It's foolish to suffer from constipation, sick headache, dizziness, distress, indigestion, and other ailments when Carter's Little Liver Pills will end all misery in a few days. Purely vegetable. No harm on liver and bowels. Small Pill—Small Dose—Small Price.

Canadian Shingles For U.S.

Fifty Carloads of Cedar Shingles Shipped From Vancouver to Eastern U.S.

A special train of fifty carloads of cedar shingles, the first to go from British Columbia through the United States, was recently shipped from Vancouver destined to points east of Buffalo, N.Y.

The consignment was the first of several trainloads expected to be shipped east during the spring and summer. Heretofore virtually all lumber and its products from the Pacific Northwest to the district east of Chicago have gone by way of the Panama Canal.

Enough shingles, made to last forty or fifty years, to roof 800 buildings of average size, or to make 4,000 people, are contained in the shipment, which required 1,125,000 logs.

In 1919 the Bureau of Mines found 465,000 men in American mines from non-English-speaking races, many of whom were illiterate.

Testing Motors For Atlantic Flight

Zeppelin Engines Must Run 100 Hours Before Installation

The hum of the five great motors which will take the Zeppelin ZR-3 to Lakehurst, N.J., there to be turned over to the United States navy, is keeping Friedrichshafen awoken these nights.

They are the most powerful long-distance Zeppelin engines ever designed, but have not yet been perfected. It is announced, and it will be a few weeks before they are installed and trial flights begun. They are of 400 horsepower each, and often run day and night in the machine shop near the Zeppelin shed, where of fields and mechanics are endeavoring to perfect them so that they will run for a hundred hours or more without a stop.

For war purposes, motors were designed for twenty to twenty-five hour trips. With the building of the ZR-3, however, it was realized that there must be perfect driving force capable of making the four-day trip across the Atlantic.

Dr. G. Becker, director of the Zeppelin Company, who will pilot the ZR-3 to Lakehurst, said that he was making no promises, but that he hoped to begin the flight early in June.

"We may be a little late in getting started," Dr. Becker said, "but we will get there when we do start."

Requisite on the Farm.—Every farmer who has a Zeppelin should keep a supply of Dr. Williams' Pink Pills on hand, not only as a ready remedy for all the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colds, it far surpasses anything that can be administered.

France's African Empire

Administration Compares Favorably With That Of Other Countries

France is building an African empire far surpassing the ancient dominions of Rome and Carthage, according to David Barrow, former president of the University of California, who is returning to the United States after a study of the French colonial administration, which he said compares most favorably with the colonial achievements of any country.

Dr. Barrow said that the French plan to make Dakar one of the world's greatest seaports, because of its proximity to North and South America. Dr. Barrow said he was greatly surprised to find that the French colonial administration was not as militaristic as had been generally reported, and that, in his opinion, the natives were being educated and civilized without being brutalized.

Minard's Liniment for Disasters

CHARGES MADE AGAINST C.N.R. AT THE COAST

Ottawa.—Senator J. D. Taylor, of New Westminster, B.C., charged in the Senate that there was organized rascality in the several departments of the Canadian Government Merchant Marine and the C.N.R. in British Columbia. He spoke on an order for the production of correspondence with the marine department respecting an inquiry into an alleged casualty to the C. G. M. steamer Canadian Farmer, and said he had been for 15 months endeavoring to secure the attention of higher officials, including the president of the railway company, to obtain an inquiry into conditions in the railway and steamship service in British Columbia, and the results of the inquiry had been negative by the direct order of the president.

Sensor W. H. Bennett gave notice that he would move for an inquiry into Canadian National Railway expenditures by a special committee of the Senate.

Sensor Taylor's charges had reference to the alleged use of the Canadian Government Merchant Marine for rum running, defrauding the insurance companies by false statements of repairs on steamers, and to illegal commissions in the purchasing department of the railway company in Vancouver, and with these were a charge of retention of guilty officials and dismissal of those who sought to purge the service of wrongdoing.

Portuguese Aviators Caught In Cyclone

Two Received Slight Injuries and Biplane Was Damaged

Allahabad, British India.—The Portuguese aviators, Brito Paes and Sarmiento Bellos, attempting a flight from Lisbon to Macao, China, are reported to have crashed at Fajal, in Jodhpur, India.

A message received here confirms the report that the Portuguese aviators flying to the Far East suffered an accident at Jodhpur. The message adds that the aviators were slightly injured and their biplane damaged.

The mishap of the fliers was due to their being caught in a storm of cyclone intensity.

A later message said that Lieut. Paes was slightly injured and that the mechanic suffered bruises but that Lieut. Bellos was unhurt.

Crow's Nest Pass Agreement

Stated That No Action Will Be Taken To Continue Suspension of Ruling

Winnipeg.—The following special despatch from Ottawa relative to the Crow's Nest Pass freight rate agreement is carried by a local newspaper:

"The government will allow the remainder of the Crow's Nest Pass freight rate agreement to come into effect this summer, according to reliable sources of information. While it is not expected that the government will commit itself definitely to this policy until the time arrives, many assurances have been given informally to private members representing western constituencies that are being withheld to continue the present suspension of the agreement."

Invitations to Naval Reception

Vancouver.—Engraved invitations, embossed with the official seals of Vancouver and Victoria, that are being dispatched from the mayor's office to the heads of cities and municipalities of the four western provinces asking them to be represented at the reception to the British special service squadron at Victoria, June 21, and Vancouver, June 25. Nearly 300 of these invitations will go to points in the Canadian west.

B.C. Provincial Election

Victoria, B.C.—It is unofficially stated here that the provincial general elections will be held on Saturday, June 21. A plebiscite on the question of whether beer shall be sold by the glass, in licensed premises, will be taken, it is believed, on the same day.

Wireless Operators Strike

Paris.—The French wireless company's operators, with but few exceptions, were on strike in a protest against the dismissal of some of their members said to obstruct work. It is believed to be the first wireless operators' strike on record.

PREPARING FOR A FIGHT ON THE TARIFF ISSUES

Ottawa.—"There has been no selling out" declared Hon. W. R. Motherwell, minister of agriculture, in the House during the continued debate on the budget. Mr. Motherwell was referring to relations between Liberals and Progressives. He added that the platform of the two parties were identical.

Subsequent debate brought a further assurance from Premier King that Right Hon. W. S. Fielding, minister of finance, was in sympathy with the budget proposals. "After making my last statement on Mr. Fielding's attitude," said the Premier, "I have had a conversation with Mr. Fielding and he requested me to repeat it again."

Col. Arthur (Conservative, Party Sound) referred to immigration as one of the gravest problems Canada had to face. During the last fiscal year, 133,000 had entered Canada while, in the same period, 132,000 left.

Calculating that the average laboring man earned \$1,000 a year, Canada lost \$133,000,000.

Hon. W. R. Motherwell said the budget was a "real Liberal one." The parties were lining up for a fight on the tariff issues, and the budget was good in that it made a distinct cleavage between high and low tariff groups.

Mr. Motherwell said the Conservatives had not yet recovered from the surprise they received in the speech from the throne. "The announcement from the implement manufacturers that they could get along very nicely under the new tariff was a final blow to the opposition, which was still frantically trying to represent industry as misled by the tariff."

Hon. Dr. R. J. Manion had cried out that industry was "being sacrificed to politics," that the Liberals had sold out to the farmers. "There has been no selling out," said the minister of agriculture, "our platform is identical with the farmers. If we carry out ours, we automatically carry out theirs."

Replying to those "who try to cloud the tariff issue" by telling the western farmers to go into mixed farming, Mr. Motherwell pointed out that some of the prairie provinces produced more butter and eggs per capita than Ontario.

Revenue From Stamp Tax

Ottawa.—An increase in the amount realized by the government from the stamp tax is indicated in the answer to a question in the Commons, when it was stated that from November 1, 1923, to March 31, 1924, the amount netted in both post office and customs departments from this source was \$2,651,982. In the same period ending March 31, 1924, the amount was \$3,914,469.

Spain Mobilizes Planes

London.—A Rottier agency despatch from Seville, Spain, says the war minister has ordered all military airplanes and the personnel of the Spanish flying corps to be ready for immediate departure for Morocco.

The information is attributed to the newspaper Vos, which intimates that the order is a consequence of urgent despatches from Morocco reaching Seville last night.

Japanese Exclusion Bill

Washington.—At the insistence of President Coolidge, the conferees from both houses on the immigration bill have reconsidered their decision on the Japanese exclusion provision and will report a provision to make the exclusion effective March 1, 1925, with the understanding that meantime a formal abrogation of the gentleman's agreement will be negotiated.

Should Keep In Closer Contact With New Settlers

Ottawa.—That the exodus of Canadians to the United States could be eliminated "by a close and sympathetic attention to immigrants before both their horses and pockets break" was the salient observation of Col. P. Lindsay, British army officer and big game hunter, who was a visitor here. "One of the reasons for the falling down in the past has been in not keeping in close enough contact with the settler after he has arrived in the country, and in not fostering him safely through the initial period," he added.

No Rupture Between England and Russia

Committee Considering Question of Debts Between Two Countries

London.—Reports that have been widely circulated denouncing the last days that the negotiations of the Anglo-Russian conference had completely broken down are denied by both parties to the proceedings. Four committees are continuing the work of considering the questions of debts between the two countries, commercial credits, counter claims, territorial waters and a general commercial treaty. These committees have been working steadily for three weeks past preparing their reports for consideration by the plenary session of the accredited delegates.

It is currently rumored that the counter claim put forward by Russia, although exceedingly high, is not likely to outweigh the British claims. Immediate cash compensation to individuals is, however, regarded as out of the question. The committees are further studying the best methods of raising funds for the gradual liquidation of both private and national debts.

Soviets Warn Germany

Demand Apology for Police Raid on Headquarters in Berlin

Moscow.—In the absence of any satisfactory explanation from the German Government concerning the recent police raid on the Soviet trade headquarters in Berlin, the Russian Government is taking an increasingly serious view of the affair.

All the Soviet newspapers describe the incident in stark headlines and publish long condemnatory editorials in which they warn Germany that if adequate apology is not forthcoming, complications may ensue from which Germany will be the first to suffer.

M. Zinovieff, chairman of the executive committee of the Communist International, declare the incident was a deliberate attempt by Russia's enemies to wreck the Anglo-Russian conference in London. He believed, however, that Russia's cordial relations with the German people were so strong that nothing could break them.

Britain May Admit Pedigree Cattle

Minister of Agriculture Preparing Bill For Imperial Conference

London.—Lord Buxton, minister of agriculture, states that he is preparing a bill to give effect to the Imperial conference recommendations with regard to the admission to Great Britain of pedigree stock from other parts of the Empire. In consequence of the preparation of the bill, the minister has declined to receive a deputation that was to have waited upon him to urge the free importation of pedigree cattle from Canada.

Soviets Would Like Old Russian Embassy

Seeking to Get Possession of Building in London

London.—The Soviet designation in London, or the British Government on its behalf, is seeking to get possession of the building formerly occupied by the Russian Imperial Embassy, according to reports. The building known as Chesham House, now occupied by Russia, is under the auspices of the Russian colony, which refuses to recognize the Soviet Government.

Cyclone Wrecks Saxons Village

Berlin.—A windstorm of cyclonic proportions wrecked Kleinberden, a village of 50 houses near Nordhausen, Saxony, says a despatch. The town is said to have been leveled as though by artillery fire. No fatalities are reported.

Severe Quake Reported

Manila.—A severe earthquake, the centre of which is believed to have been about 250 miles off the Pacific Coast of the Philippines, was recorded here at 12:10 p.m. May 7.

Strong Arm Of Labor Party

Philip Snowden, Chancellor of the Exchequer, whose Budget Speech has drawn cross fires of the Opposition.

Beatty Elected Chairman

C.P.R. President to Occupy Position Held by Late Lord Shaughnessy

Montreal.—At a meeting of the Canadian Pacific board of directors held during the annual meeting of shareholders, E. W. Beatty was elected chairman and president. The two positions were originally held by Lord Stephen, the company's first president. When Lord Shaughnessy retired from the presidency, the by-laws were changed, making it optional with the directors to have the position held by either one or two men. Grant Hall was re-elected vice-president, and retiring directors were re-elected.

HOLD BIG RALLY TO BOOST THE H. B. RAILWAY

Saskatoon.—Business men and farmers from all parts of Northern and Central Saskatchewan have joined hands with practically every organization in Saskatchewan in urging immediate completion of the Hudson's Bay Railway.

At a big rally staged under Board of Trade auspices a Saskatoon branch of the On-to-the-Bay Association was launched, after Mr. May Chas. P. Gray, Winnipeg, president of the association; J. S. Menzies, Winnipeg, secretary; Col. R. H. Webb, Winnipeg; and other prominent men had spoken.

A resolution was unanimously passed urging upon the Dominion Government the immediate completion of the railway, and asking that the necessary legislation be passed at this session of parliament.

The resolution was proposed by O. D. Hill, of Melville, and was seconded by Harris Turner, M.L.A. for Saskatchewan.

Col. R. H. Webb, member of the working committee, in speaking to the audience, said German capitalists were ready to go ahead with the scheme if the people of Western Canada did not; \$100,000,000 was the amount they had offered to raise to develop the mining, oil and other resources adjacent to the Hudson's Bay Railway. This was done before the war.

Since the war they had approached capitalists in Montreal, Toronto and Winnipeg to form a syndicate to develop these, and the question for Canadians to consider was, would they allow the Germans to do this thing or complete the road themselves.

Col. Webb said the straits and the Nelson River were open 350 days of the year, stating that he had been a visitor to the straits on many occasions and could back up his plate statement.

May Release Prisoners

London.—Special despatches from Dublin, record rumors that the Free State Government contemplates immediate release of the interned prisoners who have not yet been brought to trial, but it is not clear whether Eamon de Valera and the other Republican leaders would be included.

Will Establish Patrols Along International Border

Winnipeg.—Sergis, Carter and W. R. Day, of the Provincial Police, are now engaged in making a final survey of the points at which patrols will be established during the summer months for the policing of the international boundary. The American authorities are co-operating with the Canadian officers to prevent liquor running and smuggling, and with a special view of saving other country from intrusion by criminals from the other. Before returning to Winnipeg, Sergis, Carter and Day will make a tour of the border in order to ascertain whether any changes are advisable from the plan followed in 1923.

Waterway Project

Announcement Made of Appointment of Advisory Committee

Ottawa.—Canada's national advisory committee on the St. Lawrence waterway project, and the Canadian representatives on the joint engineering board, which will consist of three engineers from the United States and a like number from Canada, were announced by Premier King.

Hon. George P. Graham, minister of railways and canals, is chairman of the advisory committee. The other members are: Thomas Alva, Ottawa; Hon. W. E. Foster, St. John N.B.; Beaudry Leman, Montreal; Edward D. Martin, Winnipeg; Dr. W. L. Macdonald, Montreal; Hon. Sir Clifford Sifton, Toronto; Major-General John W. Stewart, Vancouver; and Hon. Adolphe Turgeon, Quebec.

Anglo-Canadian Shipping Trade

Could Be Wonderfully Developed Says Lieut.-Col. Amery

London.—"If we had the courage and vision to develop it as we should, the Anglo-Canadian shipping trade alone could be made far greater than the whole world shipping of the British Empire at the present time," declared Lieut.-Col. L. S. Amery, former First Lord of the Admiralty, at the annual meeting of the Mercantile Marine Service Association in Liverpool.

Lieut.-Col. Amery was speaking at a non-political gathering and did not particularize as to how the development of the Anglo-Canadian shipping trade ought to be accomplished.

Girls Qualify For "Red" Army Honors

Russian Peasants Took Part In War Against Counter-Revolutionists

Moscow.—Two girls of peasant origin, Mile. Boulle and Mile. Survanzova, have qualified for high honors at the "Red" Army Military Academy. Mile. Boulle is a former Moscow working girl, and Mile. Survanzova was a factory hand.

Both girls participated in the war against the counter-revolutionary armies, the former commanding a detachment of "Red" troops, and had gained distinction for gallantry and resource. They wear the regulation army officers' uniform, including scarlet breeches and high boots.

Inoculation Of Seed

Alfalfa and Clover Seed Treated With Nitro-Culture

Winnipeg.—Five thousand bottles of nitro-culture for the inoculation of alfalfa and clover seed have been sent out over the prairie provinces from Manitoba Agricultural College during April. It is the report of D. B. Shutt, assistant professor of the bacteriology department.

This quantity, Professor Shutt states, will treat 5,000 bushels of seed, which is sufficient to seed approximately 25,000 acres.

No More Credit

Dawson, Y.T.—It is reported that the Hudson's Bay Company at last has abandoned the system of giving goods to natives on credit. They must now have cash or fur to pay for what they get.

DEBTS QUESTION MAY END THE RUSSIAN PARLEY

London.—Continued delay by the Anglo-Russian conference here in producing anything like tangible results is raising increased anxiety lest the parley's Prime Minister MacDonald started with the Soviet representatives on April 14, may break down.

British officials maintain that the next plenary session of the conference, which is expected to be held this week, will be the earliest possible moment to estimate accurately the progress or lack of progress in which this month's sessions have resulted. Other well informed observers stated that the chances at present seem to be against a successful termination of the negotiations.

As was to have been expected, the question of debt is the rock upon which the conference may split. It is officially stated that Chairman Rakovsky, of the Russian delegation, has not declined to recognize Russia's debt to Great Britain for the simple reason that the negotiations have not progressed far enough for the British delegates to ask for such a pledge.

On the other hand, there is not the slightest intimation from the Soviet representatives that they have any idea of pledging the payment of even the \$265,000,000 of private debts and the enormous totals of the Soviet regime and war debts. These latter categories the British have indicated a willingness to forget, at least until the other war debts owed Great Britain by continental countries seem likely to be collected.

C.N.R. Branch Lines

Several Branch Lines in Saskatchewan

Ottawa.—The western branch lines for the Canadian National were again before the railway committee of the house, the committee passing a bill for a branch line from Victoria Beach to Pine Falls, Manitoba. Then came a bill for a branch line from Mile 24 on the Melville line of the Canadian Northern Saskatchewan to Mile 41 near Nipawin, Sask.

Andrew Knox, of Prince Albert, made some objection to the route of the proposed line, and the bill, as passed, provides for an alternate route, north easterly or northerly, for 17 miles from Mile 41.

Differences of opinion arose over the proposed route of a line from Radville to Fife Lake, Sask. N. H. McTaggart (Maple Creek), suggested that the line should swing south from Bengough to tap the Wood Mountain area. Hon. W. R. Motherwell, minister of agriculture, thought the route proposed in the bill preferable. The bill was carried with an amendment providing for alternative route from Radville or Ritchie or Bengough in a southerly then westerly direction, "as the engineers may decide."

Discussion arose on the Saskatchewan branch line from Dunblane to Mawer. Objection to the route of this line was raised by A. J. Lewis, of Swift Current. An alternative route was provided in a point west of Mawer and the bill passed.

Many Competing For Helicopter Prize

British Air Ministry Has Set Severe Test For Machine

London.—Bidders have just closed for competition for the British air ministry's prize of £50,000 for a helicopter fulfilling the conditions prescribed when the test was announced in May, 1923, says the Daily Chronicle. There are between 15 and 20 entrants, including some of the greatest authorities upon the theory of this form of flight. It is now only remains for the ministry to fix the date of the competition. It is required that to win the prize a machine shall accomplish a straight up and down flight attaining an altitude of 2,000 feet, a hovering flight of half an hour, a circular flight of 20 miles and at 60 miles an hour, a descent into a small area from 300 feet with the engines stopped.

CALGARY TRIES TO HOG IT

In a statement issued by the Tour-
ist Association of Southern Alberta
and Southeastern British Columbia,
the following is set forth:
An automobile road map has re-
ached us recently which gives every town
between Medicine Hat and Cranbrook
ample ground for very serious
thought.The map is entitled "Motor Roads
leading to Calgary, Alberta, Canada,
and a being distributed through the
United States and Canada by the
Calgary Exhibition and Stampede. It
was prepared for them by
Davidson, the president of the Cal-
gary Good Roads Association.
It shows the principal roads in the
States from Minneapolis direct west
to Portland and those of Canada from
Winnipeg to Vancouver. It is a road
map it is very good and would meet
with general approval but for one
very glaring feature. It shows the
main highway from Winnipeg thru
to Vancouver in a very heavy black
line but instead of it following the
route of the Trans-Canada Highway
from Medicine Hat through Leth-
bridge, Macleod, Blairmore, Coleman,
Blain, Elko and Cranbrook, it shows
it as running from Medicine Hat
through Brooks, Bassano, and Cle-
mont to Calgary, Banff and over the
Banff-Windermere road down to
Cranbrook and from there on to the
coast by the proper route. The entire
Crows' Nest Pass between Medicine
Hat and Cranbrook is designated as
an alternative route.Some six or seven years ago the
question of the Trans-Canada High-
way route was threshed out and a
final decision made that it should fol-
low the most direct line and on the
authority of the governments of the
provinces of Manitoba, Saskatchewan,
Alberta and British Columbia it was
designated as the Trans-Canada
Highway and the markings were to
be in red. Therefore, the correct au-
thorized route from Winnipeg west is
through Brandon, Regina, Moose Jaw,
Swift Current, Medicine Hat, Leth-
bridge, Macleod, Blairmore, Fernie,
Cranbrook, Nelson, Grand Forks,
Kerensko and Princeton. It has not
been definitely decided by the
British Columbia government whether
it will be continued on from Prince-
ton to Hope or whether it will run
from Princeton up to Spence's Bridge
and from there down the Fraser can-
yon to Vancouver.The distance from Medicine Hat
to Cranbrook shown on the main road
on the Calgary Exhibition and Stampede
map is over 462 miles, whereas the
distance by the Trans-Canada High-
way is only 318 miles.During the past four years the
Tourist Association of South Eastern
British Columbia and Southern Al-
berta have distributed nearly two
hundred thousand maps and illus-
trated booklets and the maps have shown
the correct route of the Trans-Canada
Highway. The maps now being is-
sued by the Calgary Exhibition and
Stampede will undoubtedly fall into
the hands of many of those who have
received and anticipate using them
and also make it known that opposing
influences are at work in Western
Canada, and as one of the principal
efforts of our advertising is to bring
American tourists here, we should all
pull together.It appears to us that Calgary thinks
only of Calgary, which is a very short
sighted policy. Every one who has in-
formation, they have been invited to
join with the Tourist Association of
Southeastern B.C. and Southern Al-
berta, but have refused to do so. The
Association was the first body to ad-
vertise the attractions of Western
Canada to the outside world and it is
to them that the credit for the great
increase of tourist travel in the last
four years is due. The funds of the
Association have been subscribed by
the small towns along the Crows'
Nest Pass but nothing has been sub-
scribed by Calgary, yet Calgary has
benefitted by the advertising the As-
sociation has done to a greater extent
than all of these small towns togeth-
er.We say that Calgary's policy to-
wards the Crows' Nest Pass is a
shortsighted one because the whole-
sale houses and merchants of Cal-
gary look to the people of the south
for a very considerable amount of
their business, probably the greater
part, and if they continue to show
such petty selfishness there is little
doubt that the merchants and resi-
dents of the Crows' Nest Pass towns
will resent it and take their custom
elsewhere. As a matter of fact, sev-
eral merchants of the Pass have al-
ready signified their intentions of
doing so, as we happen to know.
Calgary may be the larger town in
Alberta and its residents are justifi-
ed in feeling proud of it and in doing
all they can in the way of boosting
it, but after all that can be said in
its favor it is said, what does it amount
to compared with the towns in the
States from which we draw the great-
est number of our tourists? To them
it is hardly more than a village and
they do not come up into Western
Canada to see it. They come here
for our scenery and much of the best
of that is to be seen between Pincher
Creek and Cranbrook along the Crows
Nest Pass. Even along the BanffWindermere Highway there is no
scenery to surpass that between
Frank and Crows' Nest Lakes and be-
tween Fernie and Elko.We believe that the best and only
way to draw tourists to Western Can-
ada and send them back home with a
good impression of our country and
its people, is that they will spend
well of their trip and send others
here, is for all of our towns to pull
in perfect harmony and show a real
community spirit. The only discord-
ant element now appears in Calgary.
We hope they will realize before too
late that the towns of the Crows'
Nest Pass expect and intend to obtain
a fair share of the tourist business
on which they have spent their good
money in the advertising which has
resulted in this travel.The wholesale houses and the mer-
chants of Calgary will be well ad-
vised to give this matter careful consid-
eration.Mennonites in Manitoba have sold
their lands, 60,000 acres, to a British
company for \$25 an acre, a total of
\$1,500,000.

Oldsmobile Roadster
\$1390

The startling low price at which Olds Motor Works of Canada, Ltd., is now enabled to market the new Model-30 Six has nothing in common with the excellence of its performance, or the high grade materials and painstaking workmanship in its manufacture.

Stylish in appearance and faultlessly efficient in operation, the new Model-30 Roadster finds a definite welcome in the world of business and recreation. It seats two adult persons comfortably and provides a generous storage space under the rear deck. Dash arrangement includes speedometer, oil pressure gauge, ammeter, dash light, choke, lighting and ignition switches, all mounted in a harmonious and convenient manner. Bodies of Standard Roadsters and Touring are painted in a beautiful shade of dark blue, neatly striped.

HEIRS WANTED

Missing Heirs are being sought throughout the world. Many people are today living in comparative poverty who are really rich, but do not know it. You may be one of them. Send for index Book, "Missing Heirs and Next-of-Kin," containing carefully authenticated lists of missing heirs and unclaimed estates, which have been advertised for, here and abroad. The Index of Missing Heirs we offer for sale contains thousands of names which have appeared in American, Canadian, Scotch, Irish, English, Welsh, German, French, Belgian, Swedish, Indian, Colonial, and other newspapers, inserted by lawyers, executors, administrators. Also contains list of English and Irish Courts of Chancery and unclaimed dividends list of Bank of England. Your name or your ancestor's may be in the list. Send \$1.00 (one dollar) at once for book.

INTERNATIONAL CLAIM AGENCY, Dept. 801,
 PITTSBURGH, Pa., U. S. A.

LUNDRECK HAPPENINGS

Val Milvina, Hardwick Lynch-Staunton and Frank Lynch-Staunton have arrived home from Alberta University.

Numbers of golf enthusiasts visited the Lundre golf links on Sunday, the weather being perfect, and all reported a splendid time.

Mr. and Mrs. William Rhodes had many of their acquaintances attend a dance in their home on Saturday evening, May 10th.

Rev. Mr. Donaldson, Presbyterian minister, was a visitor in Lundre on Sunday, holding a children's Sunday School at 2 p.m. and a service at 3 p.m.

Miss Lillian Thompson, of Calgary, is the first teacher at the new school at Fir Grove, south of Lundre, which was opened on Friday, May 9th. The whole neighborhood within the school board, teacher and pupils every Sunday.

A meeting of the hall committee was held on Saturday evening, May 10th, and in the various discussions of the hall finances and improvements needed, it was thoroughly understood that as funds permitted, everything of the best would be installed. It was decided to purchase extra cups and saucers, jars and coffee-pans, so that the various supper committees will find it more convenient. In the meantime it was decided, in order to raise much-needed funds, to give a big dance on the night of Friday, May 30th. Mrs. Almer's orchestra to furnish the music. Committees were formed to see that the hall was in splendid condition for the dancers and also to see that a good supper was supplied and that everybody attending had a good time.

VERBERG-MITCHELL

A wedding of interest to many people here took place in Cranbrook on Easter Monday at the Presbyterian Manse, when Mr. L. Verberg, proprietor of the Queen's hotel, and Miss Bretta Mitchell, of Pincher Creek, were united in marriage. Rev. F. MacKay performed the ceremony and the bride was attended by Miss L. Paterson, of Cranbrook, Charlie Mitchell, of Pincher Creek, supporting the groom. Mr. and Mrs. Verberg left the same day on a short honeymoon trip—Pincher Creek Echo.

HILLCREST HAPPENINGS

Owing to sickness, Miss Reed was called to town on Saturday.

Mr. Richard Makin has purchased the residence of Harry Instone.

Fred Willetts and Harry Instone are busy excavating for basements, prior to building three new residences on the new subdivision.

Don't forget the Hard Times Dance to be held in the Union Hall on the night of Monday next, May 19th. This is going to be a good time. Marion's orchestra.

Frank Pearson, whilst helping to remove a building on his premises, met with an accident, falling and breaking several ribs. However, he is improving very nicely.

At the Methodist church on Sunday evening, Mothers' Day service was held. The Hillcrest orchestra was in attendance. Singing by Misses Harrison and Stobbs was much enjoyed.

The news of the success of the Colman International First Aid team in the provincial contest was received with delight here on Monday last, as Capt. Dick Greenhalgh is well known here. This now entitles the team to compete in the Dominion contest, which they won two years ago. It will be a great day when Hillcrest can do something like this, instead of looking on and congratulating others.

Big Attractions for Tourists

The fact that three big events are being staged in Alberta within a few days of each other in the month of May this year, lends added attraction for the tourists who will visit the province during the season. These events are the Mounted Police Pageant at Macleod, July 1, 2 and 3; the Calgary Stampede, the largest of its kind on the continent during the week following; and the Edmonton Agricultural Fair and Stampede and the Dominion Convention of Elks the third week. This makes it possible for tourists coming through from the United States to take in the three events and some nice trips to the Mountain Parks all within three weeks.

The Mounted Police celebration will be of particular interest, being the 50th anniversary of the establishment of the first Mounted Police post in Western Canada. The Calgary Stampede will be better than ever, and the Edmonton fair will have many added attractions.

REPORT OF BLAIRMORE SCHOOLS FOR MARCH

Primary
 Enrollment 44, school in operation 20 days, aggregate days' attendance 828, average 41.6, percentage 94.93. The Bank of Montreal will erect a \$371,000 office building in Vancouver.

Hon. Donald Morrison, K.C., former supreme court judge in Newfoundland, died at Los Angeles, California, on April 23rd, aged 87 years.

A British Columbia plumbing concern advertises in a local paper this way: "If you want a figure on a bathtub, consult us." They should specify what they mean by "figure."

Mr. Charles E. Yausch, a 1921 graduate of Claresholm school of agriculture, won this year the McDonald Scholarship in his final year in agriculture at the University of Alberta. This scholarship has a value of \$500, tenable for one year at Macdonald college, St. Anne de Bellevue, which is affiliated with McGill university.

The work of grading Victoria street and filling in east and west of the West Canadian Greenhill spur commenced today. The coal company are furnishing several trucks and motor-men, while the town is supplying men necessary for loading and unloading and spreading the material. It is expected the work will take close on three weeks to complete.

An indication of the healthy growth of Canadian industry during the first three months of 1924 is contained in the fact that 43 per cent of the entire production of the plant of the Ford Motor Co. has been shipped to British Overseas Dominions when coupled with figures concerning shipments of cars throughout the Dominion of Canada. This makes a truly remarkable showing. There were produced 9149 cars and trucks in the month of March, 1924, and for the first three-month period just ended, a total of 24,949 cars of all models. This compared with a similar period in 1923 shows an increase of 16 per cent in the total business done to date this year. Another interesting feature is the tremendous growth in the closed car business, this branch of the Ford company's activity approximating 50 per cent of its Canadian sales.

In addition to the huge plant at Ford, and three assembly plants at Montreal, Toronto and Winnipeg, there has recently been opened an assembly plant at Port Elizabeth, South Africa, where about 300 cars per month will be turned out.

BY APPOINTMENT
 PURVEYORS TO

HIS MAJESTY

AN ANNOUNCEMENT!

We have the pleasure of advising our friends in Alberta that there is no older or finer whisky procurable in Canada than the

"CANADIAN CLUB"
 and
Imperial
 WHISKY

we are offering at present.

This whisky has been aged in oak casks for five to seven years and matured in steam-heated warehouses, thus ensuring the uniform temperature essential to the best results. The age of this whisky is guaranteed by the Canadian Government, by its stamp over the capsule of every bottle. No such guarantee is offered with imported whiskies, which may be of any age.

The best whisky in Canada is made in Canada

Local and General Items

For Funeral Flowers, phone 212. Crow's Nest Pass Undertaking Co.

Messrs. Scanlon, of Medicine Hat, have been awarded the contract to build the new school at Bellevue.

Friday, June 20th, has been fixed as the date for the British Columbia provincial elections.

J. S. Kirkham and H. Ostlund, well known Lethbridge solicitors, were in town last week end.

There will be a meeting of bootleggers some time next week for the purpose of re-organization.

J. E. Upton, our district tailor, has recently installed some of the most modern tailoring machines.

The A.P.P. detachments at both Bellevue and Coleman have been closed out, and all equipment has been moved to Blairmore.

Samuel Patterson and family returned to Cadonia on Tuesday, after a few weeks spent with Mr. Patterson's parents.

Rumor has it that several vacancies will occur on the Blairmore teaching staff, to be filled for the opening of the fall school term.

Mr. John A. Kerr has opened a general's furnishing store in the west side of the Blairmore Hardware block. Mr. Kerr was previously located at Ponoka.

A friend of ours informs us that up to Saturday last, because of prohibition, this province contained about fifty thousand more criminals than it does today.

Our local contractor, E. J. Foss, has secured the contract for the erection of a large building for the West Canadian Collieries at Bellevue, to house the new electric compressor.

The government of the province of Alberta may conduct an auction sale of obsolete steel airplanes. Here's a chance for anyone wanting to perpetuate the lowest down creature on earth.

ESTRAY—Strayed onto my premises over six months ago, Roan Pony, about four years old. No visible brands. Apply to P. N. POTAPOFF, Cowley.

Hundreds of tourists passed west and east through Blairmore the early part of the week. Owing to the extreme drought prevailing at that time, all were obliged to travel slowly. They will speed up from now on.

Bath tubs are provided in most of the public schools in Sweden.

Mayor A. McLeod paid a visit to Calgary on Wednesday.

Mr. and Mrs. William Patterson (of Peter) are contemplating motoring to the Peace River country.

The Blairmore local of the G. W. V. A. have secured the premises next the Enterprise as a club room and are hoping to secure a beer license.

The dictatorship in Germany is to be abolished, on the ground, possibly, that France and Belgium are able to do the work without help.

An apparatus to chart the Pacific ocean bottom measures the time required for sound to pass the ocean bottom and return.

WEAVERS AND SPRAYS artistically arranged and at prices that are moderate. Phone 222, Scott's. We guarantee satisfaction. —July 26-1924

WANTED—Maternity Nurse now ready for engagement.—Apply Mrs. F. Short (residence opposite depot).

Ex-Conductor Thomas Caven is suing the C. P. R. for \$25,000 for alleged wrongful dismissal, or as an alternative \$4,000 for dismissal without sufficient notice.

The Chu Hsing Company, capitalized at \$4000, was recently organized at Huchow, China. This company is turning bamboo shoots for sale on the regular market.

Lethbridge and Drumheller are competing for the big mine rescue competition this year. Blairmore has entertained the big event for the past two years.

The director-general of the Chinese bureau of afforestation in Jehol has enlisted a mixed brigade for afforestation work and forest protection. The monthly expenses are estimated at \$62,000.

We are asked to announce that there is absolutely no truth to the report that some members of the Blairmore town council will act as legal advisers to the solicitor for the provincial department of municipal affairs.

A party of local rough riders of the plains trotted their steeds towards Grassy Mountain on Sunday last. They report seeing bears, cougars, squirrels, gophers and rabbits, and that the only animal that ran away from them was the cougar.

NOTICE

The Club which is now being operated in Coleman as the Coleman Veterans' Association, has no connection whatever with the G. W. V. A.

PROVINCIAL COMMAND, G.W.V.A. Calgary, Alberta

Mrs. James Paden was in town during the week from Tad Creek.

A new jitney service has been established between Coleman and Blairmore to be known as the "White Star Line."

The Canadian Bank of Commerce is considering the purchase of a lot on Main Street, Coleman, on which to erect a modern, fire-proof structure.

The new Sun Cafe opens for business today, next door to the Orpheum Theatre. Messrs. Du Fong and Don Chu are the proprietors. Messrs. Fong and Chu formerly conducted a restaurant at Taber.

H. C. Morrison, well-known Cowley implement dealer, is recovering from a "flu" attack and was out for the first time in several weeks on Monday.

We would advise owners of horses and cattle to see that their animals are not permitted to roam at large within the town limits, as the pound by-law is to be rigidly enforced.

Laying aside creed and denomination, the dramatic society of the First Presbyterian church, Chicago, presented a play in the auditorium of St. Ambrose Catholic church for the benefit of the fund to rebuild the James Methodist Episcopal church, destroyed by fire a few weeks ago.

A convention of the Pass branch of Omar Khayyam Temple, D.O.K.E. was held in the Blairmore Castle Hall on Friday evening last and was attended by a large number of votaries from Hillcrest and Coleman. The next big convention will be held at Lethbridge on the night of May 29th, and quite a number of Pass members intend taking it in.

The Union Hotel at Hillcrest has recently undergone a thorough renovation from attic to cellar. Rooms have been decorated, new floors laid where necessary, the office and dining room have been made clean-looking and airy and the plumbing fixtures throughout have been refitted and re-arranged. We understand that considerable of the furnishings are to be replaced by new goods. The Union is now being run by Messrs. Fred Hinchey and A. F. Farley, and are making application for a beer license.
